

Tech Tip: How to Use Glogster EDU in the Classroom

Glogster EDU: A Classroom Tool

Glogster EDU is an internet resource that teachers and students can use to improve classroom activities. A Glog is an online poster that allows the learner to build a customized page of information. The individual can fuse audio files, texts, images, graphics, and other resources into this interactive tool. The teacher and student can also use this online website to learn from the glogs of classmates, teachers, and other Glogster EDU learners. The teacher can create an account and build individual logins for each student. This short tutorial provides the teacher with a comprehensive summary of how to log in to Glogster, build student accounts, and use the Glogster tools to create a poster.

Building a Glogster Login

1. Use an internet provider to access <http://edu.glogster.com>. You can click the hyperlink to see the current Glogster webpage.
2. Click the Start with Basic hyperlink on the upper right area of the website.
3. Complete the online registration form. The text that you type in the nickname box will be used to create your login or username.

Nickname will be used for your username.

Register to EDU

Nickname:

Glogster Code

6. A personal educational Glog page will load with your username and account information.
7. Click the Dashboard tab on the menu at the upper area of the webpage. This page is the teacher dashboard, and you will use it to build glogs, engage with students, and edit profile information.

The image shows a screenshot of a Glogster profile page. At the top left, the profile header reads "Your profile (Edit your account)". Below this is a profile card for "jlink" (John Link), a male user from the United States, with a teddy bear avatar. To the right of the profile card is a "Glog Alerts" section. Below the alerts is a "Students" section displaying six student profiles, each with a teddy bear avatar and a unique ID (e.g., s055.ilink). At the bottom of the page are two buttons: "Add new students" and "Manage students".

Callout 1: A box with the text "Edit your Profile by clicking the Edit Hyperlink" has a red arrow pointing to the "(Edit your account)" link in the profile header.

Callout 2: A box with the text "Design a New Glog by clicking Create a New Glog" has a red arrow pointing to the "CREATE A NEW GLOG" button.

Callout 3: A box with the text "Engage with your Students" has a red arrow pointing to the "Students" section.

8. You will also need to check your email for a text from glogster.com. The email will include a hyperlink that allows you to validate your account by clicking here.

Adding Students

9. Click the Add New Students button on your teacher dashboard and the Add New Students box will load that will allow you to type the number of students you need to add to your Glogster EDU account.
10. You can type the number of students in the box and click Add Accounts.

The image shows a Glogster profile page for a user named 'jlink'. The profile includes a teddy bear avatar, a 'jlink' username, and status 'Online'. It also shows '0 Glogs', '100 Friends', and '0 Views'. Below the profile is a 'Glog Alerts' section with a message 'COULD NOT LOAD MESSAGES.' and a 'Students' section displaying six student profiles (s055.iink, s027.iink, s059.iink, s023.iink, s015.iink, s071.iink), each with 100 friends and 0 Glogs. At the bottom, there is a red button labeled 'Add new students' and a button labeled 'Manage students'. A red arrow points from a text box on the left to the 'Add new students' button.

Add new students

88 students - show all

Click Add New Students to create student profiles on Glogster

12. You will need to check your email account for individual logins and passwords that were created for each student that you added to Glogster.

13. The students' usernames and passwords will likely be generic usernames. The student cannot change his or her username; however, you can create personalized passwords for each student by clicking the Manage students hyperlink on the teacher dashboard.

The screenshot shows a Glogster profile for a user named 'jlink'. The profile includes a teddy bear avatar, a 'Change photo' link, and a 'jlink' username. The user is listed as 'John Link', male, 0 years old, from the United States. There is a mood input field with the placeholder text 'Enter your mood...' and 'Something about you...'. To the right, there are statistics: 2 Glogs, 100 Friends, and 0 Views. Below the profile is a 'Glog Alerts' section with a message 'COULD NOT LOAD MESSAGES.'. The 'Students' section displays a grid of six student profiles, each with a teddy bear avatar and a username starting with 's' followed by a number and '.iink'. Below the grid are two buttons: 'Add new students' and 'Manage students'. A red arrow points to the 'Manage students' button with a callout box that says 'Click Manage Students'.

14. Your Students Page will load and you can click each individual login to edit the student's account information. Edit account allows you to customize the page to include each student's name, gender, birth date, photograph, and personal interests. The Change password hyperlink provides the teacher with the opportunity to create a new password for the student. The Delete link can also be clicked to delete a student from the teacher's Glogster account.

This diagram shows a detailed view of a student profile for the username 's4r4kjjx'. The profile includes a monkey wearing a graduation cap, '0 Glogs', and '0 Portfolio Glogs'. There are three hyperlinks: 'Edit account', 'Change password', and 'Delete'. Red arrows point from callout boxes to these links. The 'Edit account' callout says 'Click Edit Account to add student's information'. The 'Delete' callout says 'The Delete hyperlink allows you to delete a student's account'. The 'Change password' callout says 'Use Change Password to create an individual password for each student'. A box labeled 'Student's Username' points to the username 's4r4kjjx'.

15. You should distribute the logins and passwords to each student. This strategy will allow each student to login to Glogster, build Glogs, and use the Glogs designed by the teacher.

Building Glogs

16. Click the teacher dashboard and build a Glog by clicking Create a New Glog.

The screenshot shows a user profile for 'jlink' (John Link) on the Glogster platform. The profile includes a teddy bear avatar, a 'jlink' username, and status 'Online'. It also shows '0 Glogs', '100 Friends', and '0 Views'. A red arrow points from a callout box to the 'CREATE A NEW GLOG' button. Below the profile is a 'Glog Alerts' section with a message 'COULD NOT LOAD MESSAGES.' and a 'Students' section listing six student accounts (e.g., s055.iink, s027.iink) with 100 friends and 0 Glogs each. At the bottom, there are buttons for 'Add new students' and 'Manage students'.

Add new students or **Manage students**

17. A Glog designed by Glogster EDU will be uploaded, and you can customize your poster using the buttons on the black tool box. You can click the Wall hyperlink to choose a background or wall for your poster.

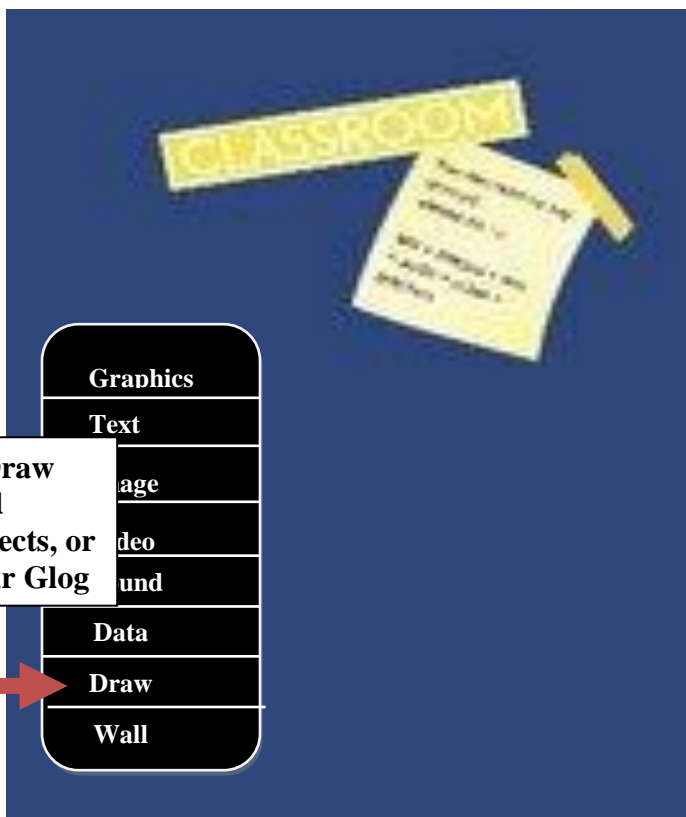

Click the Wall hyperlink to create a background or wall for your Glog

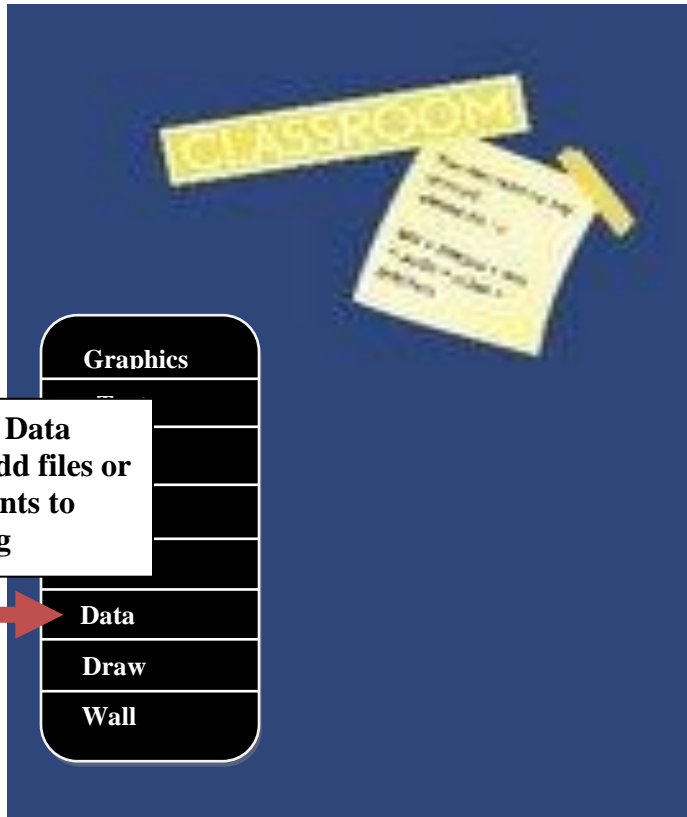

18. You can customize the wall using different backgrounds.

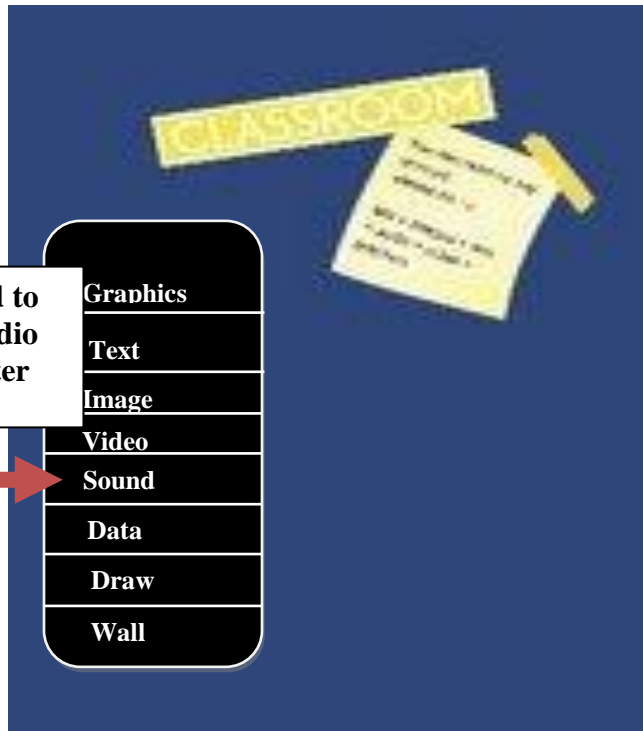

19. The Draw tool allows you to create lines, objects, shapes, and other drawings on your wall. This technique can improve the ability of the teacher and the student to customize the Glog; however, this Draw button is not provided to Basic subscribers who use the free online tool. You must purchase the premium teacher or premium school subscriptions to obtain use of this tool.

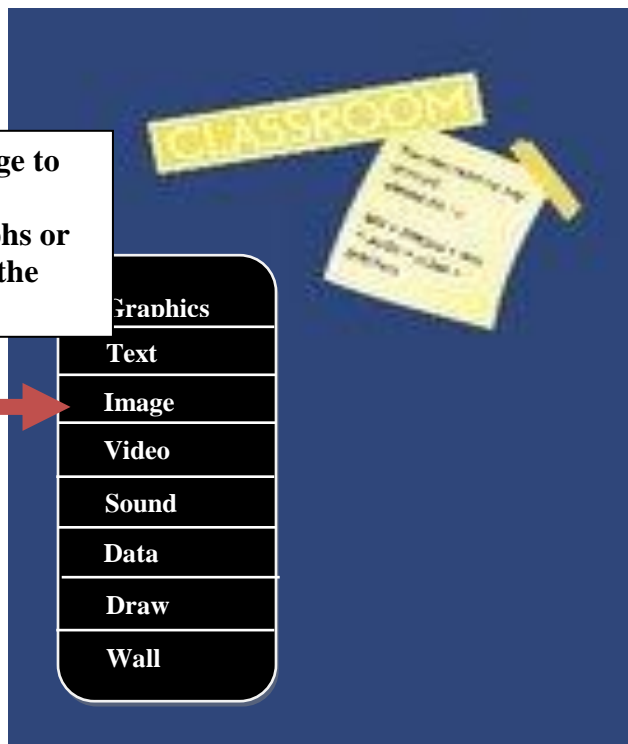

20. The Data hyperlink provides the student or teacher with the opportunity to upload an outside file to the Glog. The teacher could include an attachment or link to a file on the Glog. This Data tool allows the teacher to include information and data on the poster, and the file can be used to educate students about a subject. The Basic subscribers who use the free online tool are not allowed to use the Data tool.

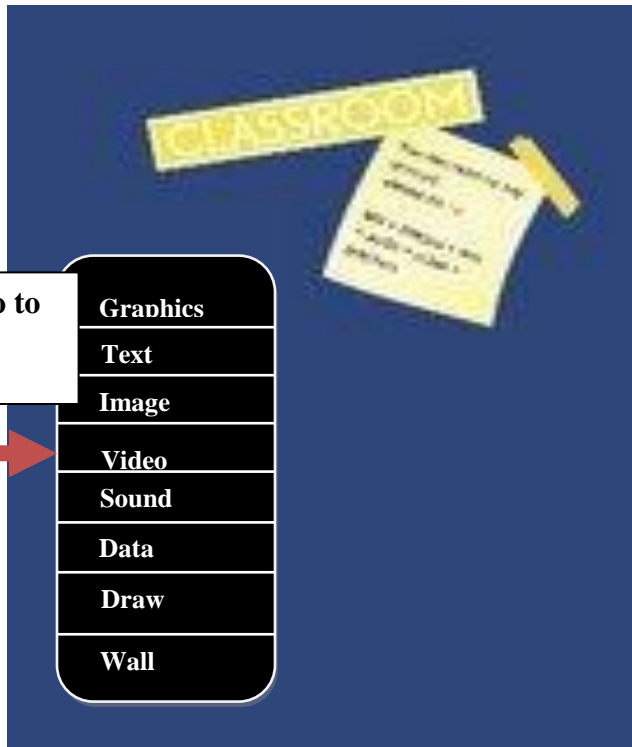

21. The Sound button on the Glogster EDU website provides you with the ability to upload or design audio that can be added to your poster.

22. The Image link allows you to upload and design images and photographs.

23. You can also use the Video tool to upload or manufacture video files to fuse into the Glog.

Use Video to

Draw

Wall

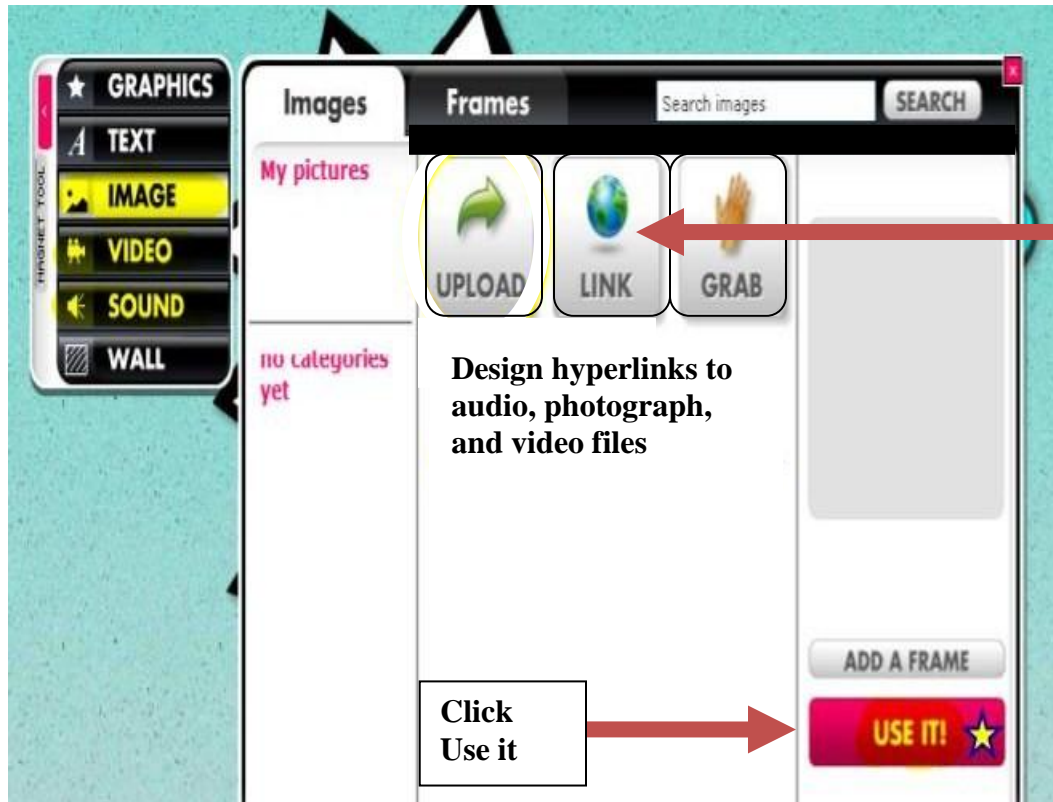

24. You can click the upload link to upload files to your Glog. This tool provides you with the opportunity to fuse video, image, or sound files into your poster. You should upload the file and click Use it to include the files on the Glog.

25. You can also design new sounds, images, or videos on Glogster and incorporate these files into your Glog using the Grab tool. Click Grab. This tool will allow you to record audio using a microphone and build videos or photographs using a computer camera. You should build the file and click Use it to customize your Glog with these resources.

26. You can include hyperlinks to images, videos, and sounds by clicking Links. You should type the link you want to add to your Glog and click Use it.

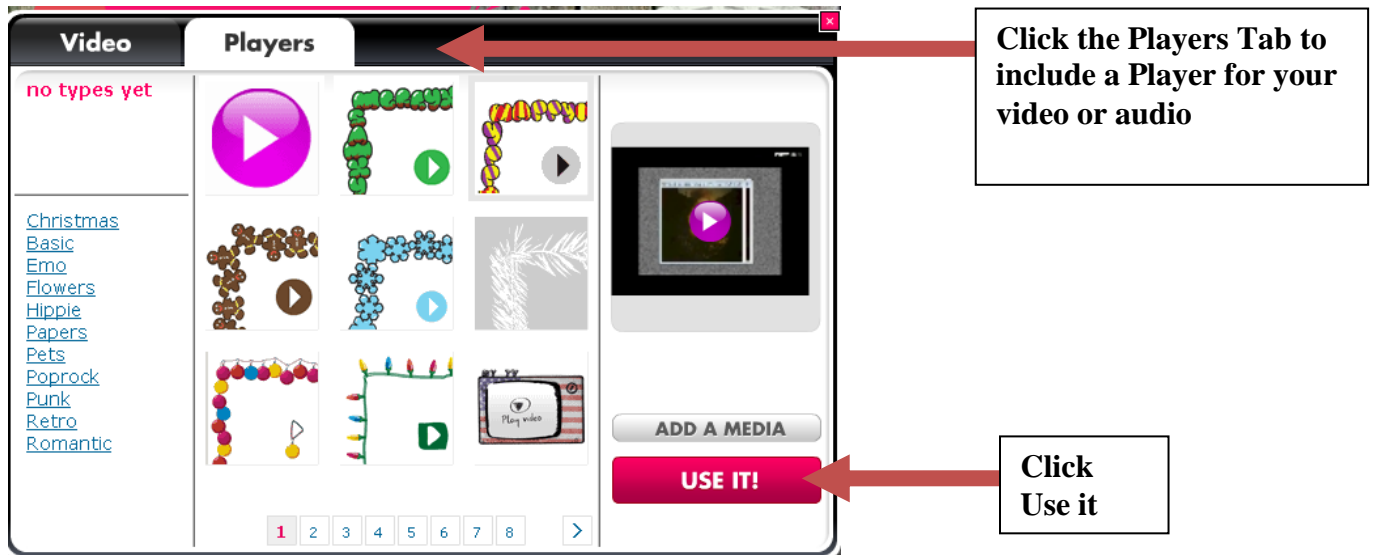

Use the Link button to create a hyperlink to an audio, photograph, or video file on the Glog

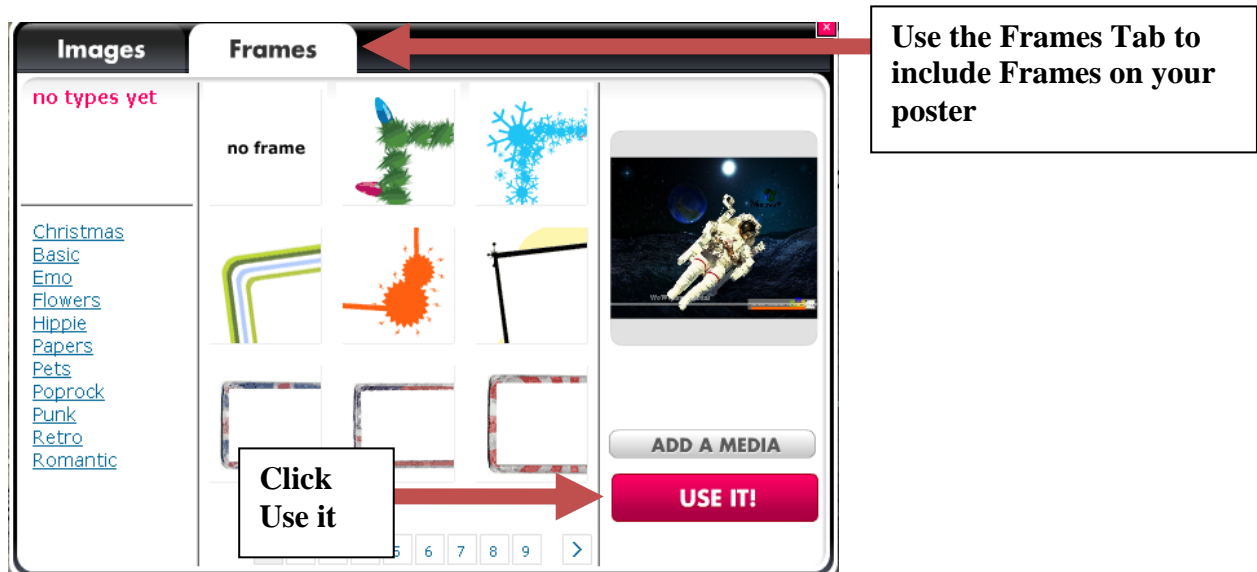

Click Use it

27. You can also customize your Sound and Video files by adding players. These tools will assist the learner in using the Glog. The student can quickly click the player on the Glog, and the video or audio file will Play.

28. You can add Players by clicking Video or Sound. The Players tab will load, and you can choose a Player from the numerous categories and click Use it.

29. The Images button also includes a variety of Frames that can be used to emphasize your photographs or images. You can fuse Frames into the Glog by clicking Images, and the Frames tab. You can reference the frame and click Use it to add the tool to your Glog.

30. The Text button provides the student and teacher with the ability to draw text boxes and include words or writings on the Glog. You can customize the text and click Use it to add these tools to the Glog. You can also change the font, color, and size of the text using the toolbar.

The image shows a screenshot of a Glog software interface. On the left, a vertical sidebar contains a 'RESET TOOL' button and a menu with 'GRAPHICS', 'TEXT', 'IMAGE', 'VIDEO', 'SOUND', and 'WALL'. The 'TEXT' tab is selected. The main area is titled 'Text' and contains a list of categories: 'bubbles', 'buttons', 'stickers', 'titles', and 'see all Christmas'. Below this are sub-categories: 'Basic', 'Emo', 'Hippie', 'Papers', 'Pets', 'Poprock', 'Punk', 'Retro', and 'Romantic'. A grid of 15 text box templates is displayed, each with 'SAMPLE text' written on it. A red arrow points from the 'Text' tab to the grid. Another red arrow points from a 'USE IT!' button to the grid. A third red arrow points from a 'Click Use it' callout box to the 'USE IT!' button. At the bottom, a toolbar contains 'OK', a color selection icon, a font icon, 'Ab1', and 'fx'. A red arrow points from a callout box 'The toolbar allows you to customize your text' to this toolbar. On the right side, a preview area shows a poster with a speech bubble containing the text 'poster yourself?' and a 'USE IT!' button below it.

Use the Text tab to include text boxes on your poster

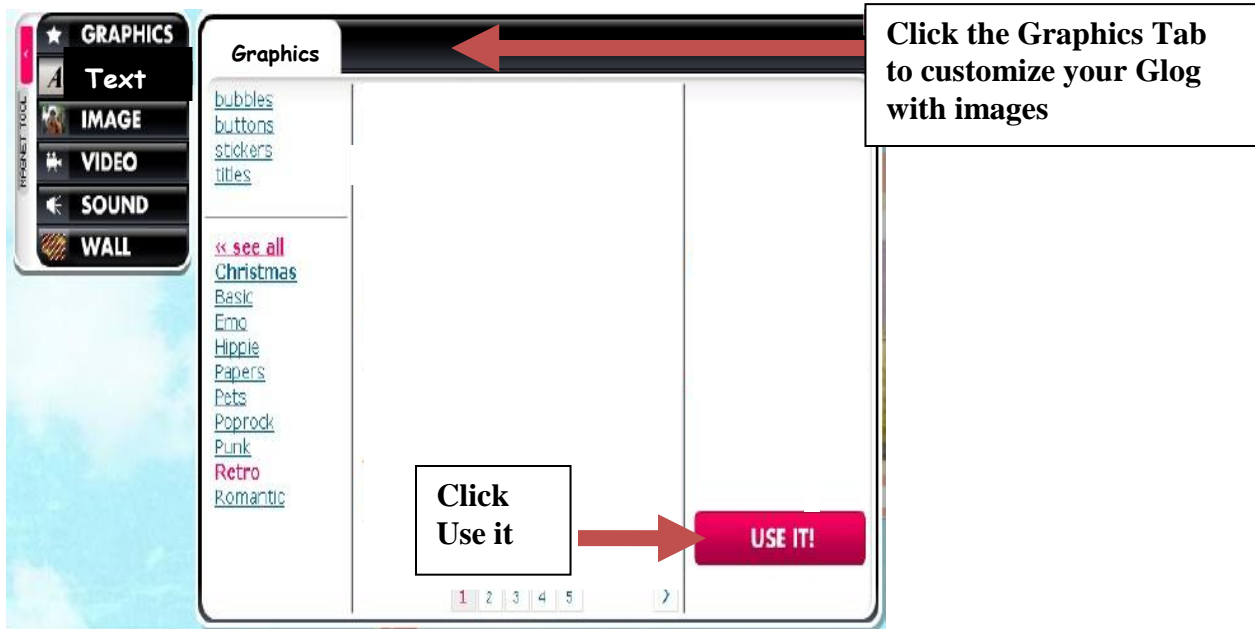

Click Use it

USE IT!

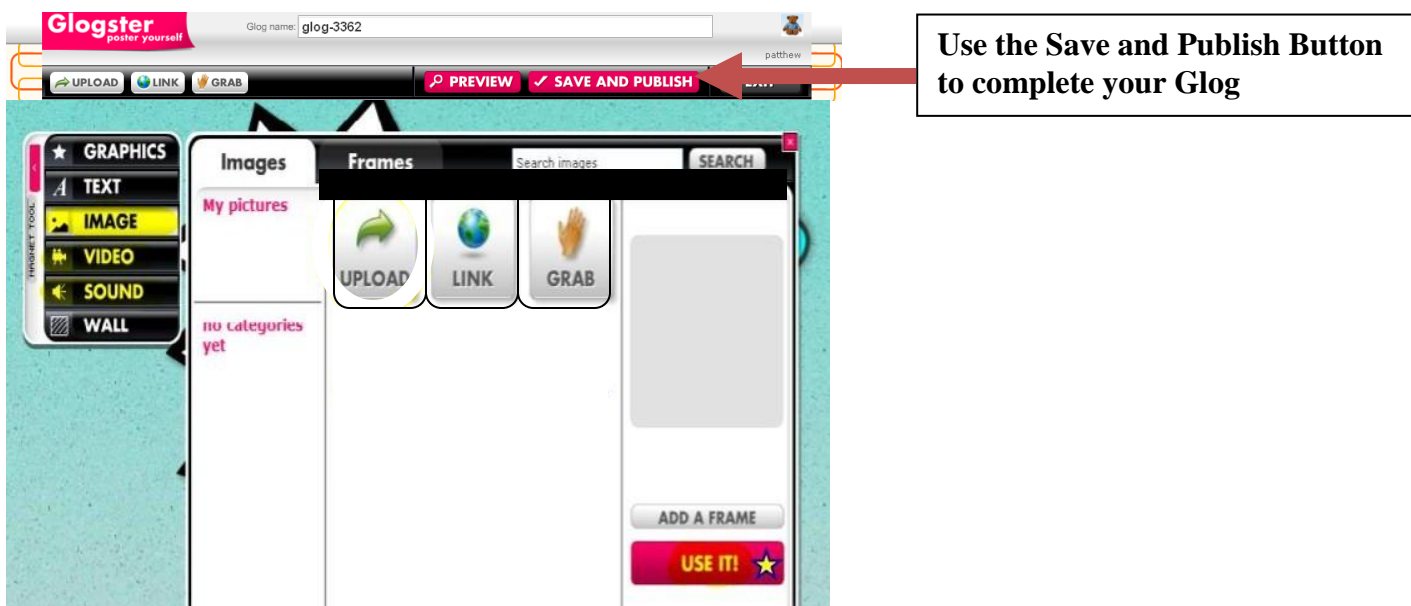

OK [Color] [Font] Ab1 fx

The toolbar allows you to customize your text

31. The Graphics link allows the student and teacher to use pictures designed by Glogster to build their Glogs. You can reference the cartoon or image that you want to include in your poster and click Use it to fuse this tool into your Glog.

32. You can click the Save and Publish button on the upper section of the webpage to complete the Glog and allow others to see the poster.

33. The Publish Changes box will load and allow you to complete your poster. You can type the file name, categorize your Glog using the subjects included by Glogster, and add tags for your Glog. You can also use the Public and Private buttons to allow other Glogster learners to see your interactive page. The Private button allows only you and the students linked to your account to see the Glog; however, the Public link allows all Glogster learners to see your poster.

35. You can click back to the dashboard and a hyperlink to the new Glog will be loaded onto the bottom right of the page. You can click the link to see the Glog.

The image shows a screenshot of a Glogster profile page. At the top, it says "Your profile (Edit your account)". The profile information includes a teddy bear avatar, the name "jlink", and details: "Online", "John Link", "Male", "0 years", "United States". There is a "Change photo" link. To the right, there is a mood input field "Enter your mood..." with a placeholder "Something about you...". Below this are two buttons: "CREATE A NEW GLOG" and "INVITE A FRIEND". On the far right, there are statistics: "2" (Glogs), "0 Glogs", "100 Friends", and "0 Views".

Below the profile information is a "Glog Alerts" section with a message "COULD NOT LOAD MESSAGES." and a scrollable area.

Below that is a "Students" section with a grid of six student profiles. Each profile has a teddy bear avatar, a name (e.g., "s055.i.link"), and statistics: "100 friends", "0 Glogs".

At the bottom of the page, there are two buttons: "Add new students" and "Manage students".

Annotations on the page include:

- A box on the left containing the text "Link to New Glog" with a red arrow pointing to the "My Glogs" text.
- The text "My Glogs" in purple, with "Glog 3147" in blue below it.
- A box on the right containing the text "Manage students".

You have completed this Glogster EDU tutorial, and you can use these techniques to fuse Glogster resources into the curriculum.
